SUMMARY

- Proficient Full-Stack Developer with hands-on experience in React, Node.js, Flask, and RESTful APIs.
- Building responsive UIs with smooth UX and clean component architecture.
- Comfortable integrating AIML features for intelligent, real-time user experiences.
- Focused on delivering functional, performance-driven web solutions with a clean developer mindset.

EDUCATION

Kasireddy Narayanreddy College of Engg Research, Hyderabad
B.Tech in Computer Science & Engineering
GPA: 8.5/10

Aug 2023 – May 2027

TECHNICAL SKILLS

Languages: HTML, CSS, JavaScript, Java, Python, SQL

Frameworks: React, Node.js, Redux, Flask

Tools: GitHub, REST APIs

CS Concepts: Data Structures, OOP

PROJECTS

Meal Monarch

meal-monarch.vercel.app

Full-stack Fitness Web Application

- Developed a full-stack fitness app with personalized diet plans — increased retention by 40
- Integrated GeminiAI API for intelligent suggestions.
- Deployed via Vercel (frontend) and Render (backend).

DocSpace

docspace.onrender.com

Personal Document Storage System

- Developed DocSpace, a secure platform to upload, organize, and access documents from any device.
- Built using Flask and deployed via Render for persistent access and backend reliability.
- Enabled Google Drive integration for secure cloud storage with 99% uptime (via Render).

FilmFlux

filmflux.onrender.com

Netflix-Lite Movie Discovery Platform

- Created a full-stack movie app that displays trending films, trailers, and streaming availability in one place.
- Built custom Flask APIs to securely fetch and process data from TMDb, used by the React frontend.
- Implemented a local Favorites system for users to bookmark movies across sessions.

CERTIFICATIONS

- Nirvana X Hackathon – 8-Hour Hackathon, Pallavi College of Engineering.
- CodeClash 2025 – The Battle of Algorithms - 2025.

ACHIEVEMENTS

- Boosted user engagement by integrating advanced GeminiAI features.
- Contributing to beginner-friendly open-source repositories on GitHub.
- Built and deployed scalable Flask APIs with real-time data and JWT auth.
